PART VIII

LINE 4a & 4b

I write articles about upcoming retreats in the local newspaper and appear on local news stations to share with the public about the retreats. People call me and ask about if they can donate funds from their normal scheduled fundraising events. I do not physically participate in nor do I organize the fundraising events.

I do plan to accept donations through the organization's website.

LINE 14d

I communicate by phone or by personal contact with my contributors to let them know how funds will be spent.
